Sujata Bhatt's first book of poems, the award-winning Brunizem, appeared in 1988. In a very short time she has gained recognition as one of the distinct and reckonable new voices. She has things to say about her native India and her native tongue (Gujarati), about America and Britain, and about Germany where she now lives. She is, the New Statesman declared, 'one of the finest poets alive', and alive in a unique way to language, to issues of politics and gender, to place and history. Hers is a remarkable complete imagination, generous and at the same time unsparingly severe in its quest for the difficult truths of experience. How Understanding Flocks, Schools and Colonies Can Make Us Better at Communicating, Decision Making and Getting Things Done. The modern world may be obsessed with speed and productivity, but twenty-first century humans actually have much to learn from the ancient instincts of swarms. A fascinating new take on the concept of collective intelligence and its colourful manifestations in some of our most complex problems, Smart Swarm introduces a compelling new understanding of the real experts on solving our own complex problems relating to such topics as business, politics, and technology. Based on extensive globe-trotting research, this lively tour from National Geographic reporter Peter Miller introduces thriving throngs of ant colonies, which have inspired computer programs for streamlining factory processes, telephone networks, and truck routes; termites, used in recent studies for climate-control solutions; schools of fish, on which the U.S. military modelled a team of robots; and many other examples of the wisdom to be gleaned about the behaviour of crowds-among critters and corporations alike. In the tradition of James Surowiecki's The Wisdom of Crowds and the innovative works of Malcolm Gladwell, Smart Swarm is an entertaining yet enlightening look at small-scale phenomena with big implications for us all.
