Dreamers and Unicorns May 20 2020 Which description fits your organisation?

DREAMERS: Most Dreamers or early-stage startups, know how to build products, not organisations. Most Dreamers stay local and never become a Unicorn with a national

footprint. UNICORNS: Three curses the Unicorns have to watch for-a narcissistic leader, a leadership team of old cronies and a toxic culture. These prevent them from going global and becoming Market Shapers. MARKET SHAPERS: A Market Shaper changes how we live and work-across countries and cultures. Their challenge is to continuously earn the trust of governments and communities. INCUMBENTS: Many Incumbents were once Market Shapers and Unicorns. The leaders don't know that the firm and its offerings are irrelevant. Not being able to attract and retain talent is a warning bell the leaders often ignore. Packed with ideas and innovations, this powerhouse of a book by best-selling author and talent management specialist Abhijit Bhaduri explains why leadership, talent and culture are the new drivers of growth whether you are a Dreamer, a Unicorn, a Market Shaper or an Incumbent.

A World Trade-Import-Export Business-Job Guide Mar 10 2022 This book

contains contact information for business, trade and jobs in most countries particularly the big ones: United States China Japan Germany United Kingdom Canada France India There are a lot of free trade agreements like NAFTA (North America Free Trade Agreement) and GATT (General Agreement on Trades and Tariffs) which has made free trade easy, especially among the members of the WTO but there is still paperwork involved when bringing commercial goods across borders because many countries put forth the idea or illusion that they're protecting their economies from world trade but in truth we're a globalized world. There is only one country called the world. It gets more interdependent everyday. China doesn't want a war with United States because they owe them a lot of money which would immediately be nullified if war is declared. I just heard on the news that this month's trade deficit for the U.S. IS 80 billion dollars. That's 80 billion dollars more of stuff coming in than going out. As I say below, I lived through the pre-free trade days. There was a time when we were prosperous when we made most of the things we used. Young people nowadays don't have an idea of a golden age when you could get a job pretty well anywhere you wanted because there were factories all over the place. Strategic Human Resource Management and Development Jan 20 2023 Strategic Human Resource Management has been a topic familiar to many. But this book approaches the same topic in a current global economy with so many Indian business

houses venturing into acquiring global giants and establishing themselves atop of the world of business in our growing economy. This means that with electronic communication making the world into a global village and virtual organizations and learning having made the distinction between 'place' and 'space' not a matter of importance, strategies to be adapted by the HR professionals should be totally new. That is where this book is having a new approach to SHRM. It is interspersed with contemporary Indian cases and experience to fall back on to illustrate the different strategies HR has to play as a business partner. Issues in employee privacy in case of virtual organizations have been vividly dealt with. Gone are the days of the fire-fighting role of HR professionals. They are required to play a vital role being part of the business strategy not only at the domestic arena but also in the global business. Challenges involved in building multicultural organizations, cross border merger and acquisition and repatriation and outsourcing are topics that are significant in the local as well as the global human resource management which are discussed extensively. The book explains career planning and development and compensation packages in the context of competencies and balanced scorecard. When speed and alacrity are demanded of all the employees to stay ahead of competition, the employees are required to put in extended hours and work in a stressful environment. Hence, the new-era HR professional has to resort to developmental activities through mentoring, coaching, counseling, stress management and emotional balance. The book is divided into five parts. Apart from the stories narrated within the text of the book, and some exercises, there is a separate section of cases at the end of the book to augment the concepts narrated in each part. It would not only fully meet the requirements of MBA students but would also give new direction to the practicing HR professionals.

The Golden Tap - The Inside Story of Hyper-Funded Indian Start-Ups Oct 13

2019 Ever wondered why global investors are willing to write million dollar cheques to
young and inexperienced entrepreneurs? Why companies are no longer judged on their
ability to make profits? Why the valuation of a startup can dwarf that of its well-
established counterpart? Is it a bubble? Or have the rules of the game changed? Can
these hyper-funded; technology driven companies become global superpowers? Or is it
an unsustainable phenomenon? The Golden Tap gives you the answers. In a
remarkably honest, no holds barred account; Kashyap – himself a serial entrepreneur –
demystifies the technology ecosystem that exists in India today. From the origins of
Amazon and Google, to the remarkable growth of Flipkart and Ola, he meticulously
plots and chronicles a connected global sequence of events. Set in this background he
recounts his personal roller coaster of a life. A story filled with ambition, greed, vanity,
fear and success that all young entrepreneurs can relate to. Is this the business model of
the future? Or merely a game of poker played by master investors? The answers pour
out of The Golden Tap.
