Muslims Dec 27 2020 This concise and authoritative guide provides a complete survey of Islamic history and thought from its formative period to the present day. It examines the unique elements which have combined to form Islam, in particular the Qu'ran and the influence of Muhammad, and traces the ways in which these sources have interacted historically to create Muslim theology and law, as well as the alternative visions of Islam found in Shi'ism and Sufism. Combining core source materials with coverage of current scholarship and of recent events in the Islamic world, Andrew Rippin introduces this hugely diverse and widespread religion in a succinct, challenging and refreshing way. Using a distinctive critical approach which promotes engagement with key issues, from fundamentalism and women's rights to problems of identity and modernity, it is ideal for students seeking to understand Muslims and their faith. The improved and expanded third edition now contains brand new sections on twenty-first century developments, from the Taliban to Jihad and Al Qaeda, and includes updated references throughout.

Medicinal Plants Nov 13 2019 All 15 new independent states established in the economic space of the former Soviet Union suffered big declines in output and trade after their independence. This study summarizes cross-country experience on the role of trade and payments policies in the linked contraction of output and trade by drawing on eight country case studies: Estonia, the Kyrgyz Republic, Latvia, Lithuania, Moldova, Russia, Ukraine, and Uzbekistan. The results of the case studies show that trade reform and reorientation of trade toward the rest of the world have done much to arrest the decline in output usually associated with the transformation from plan to market.
